NEW YORK, Nov. 1.-With the holiday

in London and the coming holiday here,

STOCKS HAVE MOVED FOR A WEEK

WITHOUT ANIMATION.

the local market ruled even duller and more narrow to-day. Moderate inactivity and slightly higher prices were shown at the epening, though there was an undertone of irregularity. The greatest gains at the opening were in Manhattan, St. Louis & San Francisco and Colorado Fuel W. J. Holliday & Co. and Iron. Apparent covering in Reading brought a fractional advance in that stock, and it was reported that one firm of brokers had bid 6714 for any part of 100,000 shares

of the common. Other points of the early strength were Rock Island and Canadian Pacific. The special class was most prominent, but fluctuations were insignificant. Many of the standard issues were neglected. Kansas City, Fort Scott & Memphis, which opened with a one-point advance, lost all its gain and more, on moderate transactions. The buying of Colorado Fuel was attributed to two widely different interests and was the only feature of the industrial class. Manhattan's strength was not sustained, the stock making a net loss on comparatively heavy transactions of over a point. The bank statement had not entered very seriously into the calculations of the traders, yet it was rather better than

many looked for, and the selling which fol-

lowed its publication lacked explanation.

The close was dull and weak.

Impartial observers were of opinion that the dullness of the week was due to causes far removed from political considerations. The real reasons, they believe, are more important and deep-rooted. The fact that this country has changed from a creditor to a debtor nation and that its obligations abroad are not likely to be liquidated without some strain, has unquestionably excited concern in conservative quarters. It has created a situation which those who ought to know best believe must result in a drain on the country's gold reserves before the end of the year. Foreign ... 5.00@ 7.00 | advices agree that England and France, ..30.00@50.00 particularly the latter country, by reason of her international troubles, will soon deof her international troubles, will soon de mand goodly installments of the sums due them. The movements in foreign exchange during the week indicated that England's debt to France could easily be arranged by direct shipments of gold from New

The labor problem also developed inter-

estingly. There were fresh demands by various bodies of trainmen in the West, and the situation on the Pacific coast became rather more acute. The attitude of the coal miners in their relations toward the independent operators was also regarded as unfavorable circumstances. Of the stock market there is little to say except that a slightly better tone pre-vailed in the last half of the week. The activity and improvement shown in certain issues resulted largely from aggressive buying by pool operators, but not a few traders reversed their position in the belief that the liquidation had run its course. The professional element was dominant throughout, however, and there was next to no ments of two active railroad stocks, Louisville & Nashville and Norfolk & Western. Trustworthy information has it that there will be no advance in dividend rates in these stocks in the near future, and in the case some doubt as to how the outside interest will fare at the hands of the Atlantic Coast Line. Realizing in Louisville & Nashville and Norfolk & Western was among the few noteworthy market features of the week. There was considerable speculative activity in St. Paul on Thursday, in the expectation 

bonds under the recent offer of the Treas- | National Biscuit pref. ury Department. The treasury statement for the first four months of the fiscal year shows an excess of receipts over expenses of \$13,500. Call money ranged from 3 to 7 per cent, during the week, the high figures being reported on Friday. The banks were again partial to good commercial paper in time loans, the rate for which relaxed to 51/2 per cent., but later returned to 6 per cent. It is estimated that almost \$64,000,000 will be disbursed during the month for interest and dividends of leading railroads and industrial and other corporations, as against a little over \$60,000,000 in November of last year.

Trading in bonds was in small volume during the week, and the movement irregular, on a narrow range. United States \$280,303,732; balances, \$23,797,694. twos declined 1/4 per cent., as compared with the closing call of last week. Following are the day's share sales and the recorded price changes:

WEEKLY BANK STATEMENT.

Unexpected Increase in Cash-Loans and Circulation Augmented NEW YORK, Nov. 1.- The statement of the associated banks for the week ending

to-day shows the following changes: Leans, increase \$7,532,100; deposits, increase \$11,105,900; circulation, increase \$1,-965.000; legal tenders, increase \$842,000; specie, increase \$5,491,500; reserve, increase \$6,334,100; reserve required, increase \$2,776,475; surplus, increase \$3,557,624; United States deposits, in-

The banks now hold \$21,339,100 in excess of reserve requirements under the 25 per cent. and \$31,419,525 of United States de-The Financier says: "The striking feature of the statement of the New York

associated banks last week was the unexpeceed gain of \$6,334,100 in cash, whereas the traceable movements of money during the week seemed to indicate a loss of \$212,900. It is noteworthy that the gain in cast last week makes the total increase in this item for two weeks \$23,397,200, or an amount about equal to the sum disbursed for bonds bought for the sinking fund and the receipts of gold at San Francisco from Australia, which gold was transferred hither by telegraph during the week. The loans werk augmented by \$7,532,100, making \$13. 058,900 in the fortnight. The increase last

fat steers that were above the average. This

of the week was about as dull as one could

25c lower than earlier in the week. The most

undesirable feature was not the decline in prices,

but the difficulty in finding an outlet for the

strong market for butcher stock all week, and,

while there has been no material advance in

values, a strong average has been maintained.

There was rather a quiet market for stockers and feeding cattle until the later part of the

week, when more than the usual number could

have been the past two weeks. In fact, some

of the better kinds represented a little advance.

The very unsatisfactory conditions existing in

other markets is responsible for a feeling of fear among dealers here, and shippers are being ad-

week was probably due to temporary loan of funds which had been accumulated preparatory to their disbursement this week for interest and for syndicate operations. Derosits were increased \$11,105,900, or \$2,-760,00 less than the amount called for by the gain in cash and in loans; hence the stacement is again out of proof. The requined reserve was augmented by \$2,776,475; deducting this sum from the gain in cash leastes \$3.577,625 as the increase of surplus reserve to \$21,339,100 as computed on the net deposits, including those of the governmerit. Excluding these deposits, which now amount to \$40,185,800, the surplus reserve increased by \$3,587,725 to \$31,385,550. Another rtant feature of the statement was a

WASHINGTON .- Saturday's statement of | Longs again threw a lot of stuff on the market, and with no support prices declined steadily. Large primary receipts and rapidbear features. Selling by the Southwest was also a weakening influence. World's shipments were estimated at about 12,000,000 to 72c. The close was 1/2c lower at 72@721/sc. Clearances of wheat and flour were equal to 729,000 bu. Primary receipts were 1,593,000 bu, against 1,130,000 bu a year ago. Minneapolis and Duluth reported receipts of 880 cars, which, with local receipts of 121 cars, ket, and after a fairly steady opening prices weakened. With the lower tendency stop loss orders became general and these offerings lent an impetus to the downward trend. There was little demand for May, shorts being about the only buyers, while longs had a considerable amount to offer. Trad-

ing in December was light, and there was a wide fluctuation on limited transactions. The close was weak, December %c lower at 501/2650%, after selling between 501/2c and 5156c. Receipts were 274 cars, fifty-seven of contract grade. Oats ruled weak, particularly May, on selling by commission houses influenced by weakness in other grains. Trade was of

after selling between 29%c and 30%c. Receipts were 274 cars. Provisions were subjected to a steady selling pressure from longs. The market was extremely weak throughout the day and the close was lower. Large receipts of hogs and lower prices at the yards were the depressing influences. January pork closed 2714c lower at \$15.321/2, lard 20c lower at \$9.121/2 and ribs 15c down at \$8.10. Estimated receipts for Monday: Wheat, 110 cars; corn, 210 cars; oats, 230 cars; hogs,

wheat scin yielded to pressure from holders, who selt disheartened over big receipts at 22c, loss and talk of a large visible supply, and at 10\(\frac{1}{2}\ell(0.11\) at 10\(\frac{1}{2}\ell(0.11\). Oats-Freeipts, 78,000 bu; exports, 34,894 bu Spot dule No. 2, 34c; standard white, 26c; No. 2 white, 36c; No. 3 white, 35% @36c; track mixed Wastern, 35@35%c; track white, 36@ 43c. Optons quiet and easier. December
